PROFESSIONAL SUMMARY

Enthusiastic and dedicated ReactJS Developer with a strong foundation in front-end development and a passion for creating elegant user interfaces. Eager to leverage the skills gained during academic studies and personal projects to contribute to a dynamic development team. Adept at turning design concepts into responsive and interactive web applications that deliver seamless user experiences. Excited to embark on a journey of continuous learning, collaborative problem-solving, and contributing to innovative projects in a professional environment.

SKILLS AND ACCOMPLISHMENTS

- **Programming Languages:** JavaScript | TypeScript(basic) |Python
- **Frontend Development:** React JS | HTML5 | CSS3 | Bootstrap | jQuery | ES6
- **Backend Development:** Django(basic)
- **Databases:** SQL server(basic)
- **Version Control & Collaboration:** Git | GitHub
- **Web Design & Development:** Web Designing | Web Development | REST API | JSON | HTTP
- **Code Quality:** ES Lint
- **Problem-Solving**
- **Communication**
- **Other Skills:** NPM | Yarn | Webpack | Babel | Jira

PERSONAL PROJECT

Project: Online Ticket Booking Application

Duration: March 2023 – September 2023

Project Overview

I have successfully developed an online ticket booking application, utilizing a combination of HTML, CSS, Bootstrap and JavaScript. This application empowers users to seamlessly browse, select, and book tickets for various events and services, offering an intuitive and visually appealing user experience.

Key Contributions:

-During the development of this application, I undertook several crucial tasks and incorporated essential features:

Frontend Design and Styling

- Utilized HTML to structure the application's webpages.
- Employed CSS to craft custom styles, ensuring a visually appealing and user-friendly interface.
- Leveraged Bootstrap to facilitate responsive design and enhance the application's aesthetic appeal.
- Implemented user registration and authentication functionalities to ensure secure access to booking features. Users can create accounts, log in securely, and enjoy a personalized experience.
- Designed individual event/service pages that provide users with in-depth event information. Display additional details, including event descriptions, images, and available ticket categories.
- Allowed users to select the number of tickets and ticket categories, implemented a shopping cart system, Calculate and display the total cost.

User Profile Management

- Developed user profiles, enabling users to view their booking history and update personal information.
- JavaScript was employed to personalize the user experience, creating a dynamic and user-centric environment.
- HTML for structure.
- Bootstrap for responsive design and enhanced UI.
- JavaScript for dynamic functionalities.

This project provided me with hands-on experience in building web application represents a significant accomplishment, demonstrating my proficiency in web development technologies and my ability to create a user-centric, feature-rich platform. This project serves as a testament to my skills in HTML, CSS, Bootstrap and JavaScript, as well as my commitment to delivering robust and user-friendly web solutions. It also honed my problem-solving skills by tackling challenges related to authentication, data management, and user experience. Through this project, I gained practical insights into the software development lifecycle and acquired skills essential for a successful career as a web developer.

EDUCATION

Post Graduation (Masters of Business Administration)

- United School of Business Management, Odisha

Passing Year: 2021-2023

Marks obtained: 7.54 CGPA

BTech (Bachelor of Technology)

- Centurion University of Technology and Management, Odisha

Passing Year: 2015-2019

Marks obtained: 6.81 CGPA

CAREER OBJECTIVE

I want to be a part of renewed organization & to contribute towards the growth of the organization based on my personal capabilities by learning form the new exposure with in the structured frame of work.
